

NAGENDRA GUPTA

Full Stack Developer | MERN Stack | Backend Engineer

+91-9628960163 | nagendragupta3248@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | Noida, India

PROFESSIONAL SUMMARY

Results-driven Full Stack Developer with 2+ years of experience building scalable, high-performance web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Proven expertise in REST API development, real-time systems with Socket.IO and WebSockets, payment gateway integrations (Razorpay, Cashfree, Stripe), and enterprise-grade security (RBAC, JWT, OAuth, API Encryption). Skilled in TypeScript, Docker, Redis, BullMQ, and GraphQL. Adept at delivering production-ready platforms in Agile environments with a strong focus on code quality, security, and system reliability.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, Node.js, Express.js, React.js, Redux, GraphQL, HTML5, CSS3, Tailwind CSS, Bootstrap

Databases & ORM: MongoDB, MySQL, Firebase Firestore, Prisma ORM, Sequelize ORM, Redis

DevOps & Tools: Docker, Git, GitHub, Postman, BullMQ, CI/CD basics, Agile / Scrum

Real-time & Cloud: Socket.IO, WebSockets, Firebase (Push Notifications, Dynamic Links, Auth)

Payment Gateways: Razorpay, Cashfree (Webhooks), Stripe

Security & Auth: RBAC, JWT, OAuth 2.0, API Request/Response Encryption

APIs & Architecture: REST API, Microservices concepts, MVC pattern, Third-party API integrations

WORK EXPERIENCE

Full Stack Developer | **Bharat Batuk Pvt Ltd** | Noida, Uttar Pradesh *Jun 2024 – Present*

- Architected and developed 3 interconnected production platforms — [batuk.gold](#), [partner.batuk.gold](#), and [admin.batuk.in](#) — supporting 30,000+ users across gold/silver investment, SIP, jewellery purchases, and coin redemptions.
- Built end-to-end backend with Node.js and Express.js, processing high-value financial transactions with 99.9% uptime and secure Cashfree Webhook integrations.
- Implemented Role-Based Access Control (RBAC) across a 4-level hierarchy (Partner → Employee → MFD → Investor), reducing unauthorized access incidents to zero.
- Engineered full API request/response encryption for all sensitive transaction data, improving platform security compliance.
- Integrated Firebase Push Notifications for real-time transaction updates, improving user engagement by ~25%.
- Designed a custom deep-link system to tag investors with their MFD/Partner, enabling personalized user journeys and boosting referral tracking accuracy by 40%.
- Integrated live metal price APIs and third-party catalog APIs for real-time gold/silver rate updates.

MERN Stack Developer (Trainee) | **Ducat IT Training** | Noida, Uttar Pradesh *Oct 2023 – Jun 2024*

- Developed 5+ full-stack projects using MERN stack, implementing RESTful APIs, CRUD operations, and JWT-based secure authentication.
- Collaborated in an Agile environment using Git version control and Postman for API testing, improving code delivery speed.
- Built performance-optimized solutions with MongoDB indexing and Node.js clustering, reducing average response time by ~30%.

PROJECTS

Batuk.gold — Gold & Silver Investment Platform (Live) — *Node.js, Express.js, MongoDB, Firebase, Socket.IO, Cashfree*

- Backend for a live fintech platform processing gold/silver SIP investments, coin redemptions, and jewellery purchases for 30,000+ registered users.
- Implemented Cashfree Webhook-based payment processing with idempotency checks, achieving near-zero failed transaction rates.
- Integrated live metal price feeds and secure third-party catalog APIs; added Firebase push notifications for real-time transaction alerts.
- Enforced robust error handling, transaction logging, and data validation layers to secure high-value financial data.

Partner.batuk.gold — Multi-Role Partner Platform (Live) — *React.js, Node.js, Express.js, MongoDB, Material-UI, Cashfree*

- Built a 4-level hierarchical platform (Partner → Employee → MFD → Investor) with role-specific dashboards, access control, and automated commission distribution.
- Implemented dual payment flows: in-app direct payment and EJS-based email proposal links, increasing investor conversion flexibility.
- Developed automated PDF report generation for partner portfolios and commission statements using js2pdf.

DreamDor.com — Counseling Session Booking Platform (Live) — *React.js, Node.js, Express.js, MySQL, Stripe*

- Developed a full-stack platform for booking counseling sessions with role-specific dashboards for Admin, Counselor, and Student.
- Integrated Stripe for secure session payments and admin-approved counselor payouts, managing the full session lifecycle.
- Built complete RBAC system for 3 roles; managed slot creation, booking, session completion, and payout workflows, reducing admin effort by ~50%.

MechMiles.com — Automotive E-Commerce & Service Platform (Live) — *React.js, Python, Flask, PostgreSQL, REST APIs, Payment Gateway*

- Built a multi-platform automotive e-commerce ecosystem including a customer storefront, service booking portal, mobile apps, POS system, and an admin dashboard — serving tyre and automotive service needs end-to-end.
- Developed tyre search by vehicle type, size, and brand with dynamic filtering, cart, checkout, and online payment integration for a seamless purchasing experience.
- Implemented service appointment scheduling for tyre fitting and automotive services, integrated with real-time availability across multiple service locations.
- Built a comprehensive Admin dashboard to manage products/inventory, orders, service points, and franchise networks — enabling multi-location franchise operations.
- Contributed to mobile app and POS support, extending the platform beyond web to in-store and on-the-go use cases.

EDUCATION

B.Tech in Computer Science & Engineering — Suyash Institute of Information Technology, Gorakhpur
Expected 2027

Diploma in Computer Science & Engineering — Mahamaya Polytechnic College, Maharajganj *2023*

Intermediate (Class XII) — PIC Partawal Bazar, Maharajganj *2021*

High School (Class X) — PG Senior Secondary School, Kaptainganj *2019*

CERTIFICATIONS

MERN Stack Development — Ducat India | **Full Stack Web Development** — Infosys Springboard
